Incorporated 1921

HOLLAND, MICHIGAN

*Your Headquarters For
A Complete Assortment of Fine Hardy Perennials*

BUY YOUR PLANTS FROM THE NORTH. IT'S SAFER
WITH A LONGER PLANTING SEASON.

Why You Will Find Weller's Perennials the Best

Because we make a specialty of growing them to perfection, and make it our point to give you SERVICE, QUALITY AND VALUE. Our plants make REAL ROOTS, and what is more important to a Perennial than a GOOD ROOT SYSTEM?

All plants offered in this list are strong, field grown, two year old, transplanted, unless otherwise specified. Biennials are one year old. Our plants bloom the first season.

Those marked (*) are especially suited for cutting; those marked with (†) are best suited for rockeries; those marked with (‡) are best suited for ground cover. Those printed in larger type are novelties.

In the description the flowering period is indicated by the name of the month, as May-June, etc.

PRICES

The price you pay depends on the quantity you buy. Please note the following price and quantity scale. 25 or more plants of a variety or color sell at the per 100 rate. **10 to 24 plants of a variety or color sell at the per 10 rate. For 5 to 9 plants of a variety or color add 5 cents per plant to the per 10 rate.** We cannot fill any order for less than 5 of a variety or color.

TERMS AND CONDITIONS

TERMS: F.O.B. Holland. Packing extra at cost. 2% in 10 days; net 30 days; 3% for cash with order without packing charge. Please state whether we may substitute in case we are short.

All orders accompanied by Cash will be Shipped Express collect unless sufficient funds to cover postage are included in Remittance.

All goods travel at purchaser's risk. Our responsibility ceases when goods are delivered in good order to carrier. All claims for damage in transit should be filed immediately with the delivering carrier. We are willing to render assistance with the preparation of a claim should you so desire.

WE SELL WHOLESALE ONLY

All orders from new customers must be written on business paper, indicating that you are actually engaged in the nursery business and if not, please give us the number of your State License. And under no conditions, show or turn this catalog over to one of your retail customers or anyone not entitled to wholesale prices.

General Information about Perennials

VARIETIES

All varieties best suited for Cutflowers have been marked with an (*). No Florist should be without any of them, although it is possible that a certain class suits one better than the other. Varieties shown in Heavy Type, are recommended for planting before others or to remind you that they should not be missed by any means. The flowering time is given with each variety or species, which enables you to make your selections accurately. Further, the colors are given of each variety, so that if you want blue most of all, such varieties as Delphinium, Centaurea, Eupatorium, etc.; may be selected without difficulty. We advise planting a general variety under most circumstances, which prevents a surplus crop at any one time, but protects you against shortages at all times.

FALL PLANTING AND WINTER PROTECTION

To obtain the largest crop of flowers the first year at the proper time, planting should be done in the fall. Early planting is advisable, so that the plants can become thoroughly established before winter. Most important in fall planting, is, that the land is well drained, so that no excessive moisture can collect during the winter and early spring. Plant Perennials the same depth as they grew in the nursery and after planting, hill up the soil around the plants to about two inches, not packing down the hills at all. As soon as the ground is frozen and winter seems permanent, cover up rows with straw or corn stalks, which should be taken off as soon as the danger of frost has passed, at the same time leveling down the hills from the plants.

SPRING PLANTING

Spring planting suits nearly all situations, except that there is seldom time enough to do the work properly. Perennials planted in the spring will not flower as profusely the first summer as those planted in the fall. Orders for spring delivery will be reserved until the proper time, but owing to the scarcity of some of the outstanding varieties, we advise that you place your order now to avoid disappointment later.

A FIELD OF THREE-YEAR-OLD BUXUS WELLERI

BUXUS SEMPERVIRENS WELLERI

BOXWOOD---Weller's Hardy Northern Type

HARDIEST BOXWOOD ON THE MARKET

The satisfaction of Buxus Welleri as the hardiest Boxwood on the market is well established, for they have been planted in every section of the country and repeat orders and unsolicited expressions from customers make us happy to continue to offer them.

Do not confuse with the Suffruticosa variety. Welleri has much better foliage and it grows faster, thus making a quicker and better hedge and still it may be trimmed and kept low and dense to any size in dwarf hedge form or edging.
